Heritage open days
13th to 22nd September 2019

If you would like to experience this venue live and hear beautiful music and hear the acoustics at there best look out for the amazing events happening with OPUS Theatre.

The sound of an orchestra, trumpet, singer, pianist is amazing in this building.
We can not wait for the organ to be playable again for you to be amazed at how that resonates throughout the building and down the road.
